Data Notes:

- Data obtained from the Missouri Department of Health and Senior Services - Bureau of Health Care Analysis and Data Dissemination (BHCADD)
- Workers' compensation eligibility criteria and availability of data from workers' compensation programs varies among states, prohibiting state-level data from being directly compared to other states or with national estimates
- Counts based off of small cell counts of 0, 1, 2, 3, and 4 have been suppressed to protect patient confidentiality. In some cases secondary suppression was used to suppress rates based on cell counts >4 to prevent reverse calculation of totals to identify small cell counts
