Annual Number of Carpal Tunnel Syndrome Cases with Lost Work-time Filed with Missouri Workers' Compensation by Industry from 2003 - 2011

Measures that have been suppressed to protect patient confidentiality have been identified using italic text with a shaded background.

Industry	2011*
Construction	15
Education and Health Services	27
Financial Activities	9
Information	6
Leisure and Hospitality	13
Manufacturing	54
All Other Industries	13
Professional and Business Services	16
Public Administration	13
Transportation and Utilities	9
Wholesale and Retail Trade	33

Data Notes:

- Data obtained from the Missouri Department of Labor - Department of Workers' Compensation
- In order to qualify as having lost work-time, an employee must miss more than 3 days of work due to an injury
- *Rates based off of small cell counts of 0, 1, 2, 3, and 4 have been suppressed to protect patient confidentiality. In some cases secondary suppression was used to suppress rates based on cell counts >4 to prevent reverse calculation of totals to identify small cell counts
- Workers' compensation eligibility criteria and availability of data from workers' compensation programs varies among states, prohibiting state-level data from being directly compared to other states or with national estimates
- *Data for 2011 and after is not comparable with previous years due to occupational definition changes made by the BLS. For more information go to: <http://www.bls.gov/soc/>
